

# Outcomes Improvement Governance Consulting

*Implement the essentials of transformational improvement*

**Type:** Professional Service

**ID:** 1665

**Revised:** 2020-Dec-22

Health Catalyst's Outcomes Improvement Governance Consulting is an expert-led engagement that facilitates implementation of structures and processes that enable meaningful and ongoing improvement in healthcare. With a flexible, principle-based approach, our consultants partner with your leadership to create capable and engaged teams that can reliably discover and realize financial, clinical, and operational outcomes improvement. The service delivers findings and an executive report with recommendations to guide the implementation of improvement governance tailored to your organization.

## The problem

Leaders realize that to meet the many challenges confronting healthcare, they must transform their organizations. But executive awareness and enthusiasm aren't enough; they have to be followed by concrete plans and support structures that empower people to plan, trial, learn from, and refine improvement efforts. Many organizations fail to provide this critical follow-up—losing momentum and squandering the trust and needed to move forward in a transformational improvement strategy. Particular challenges that most organizations struggle with: Adopting a strategic process to prioritize initiatives and implementing practices that sustain focus over the long haul.

## Intended Users

- Chief Executive Officer
- Chief Financial Officer
- Chief Operating Officer
- Chief Clinical and Nursing Officers
- Chief Information Officer
- Clinical and Operational Directors

## Our team

Our team is a diverse group of professionals—clinicians, financial analysts, and analytics and operational experts—steeped in the realities of value-based care and committed to ensuring that our client partners succeed in changing healthcare for the better.

## Success stories

For examples of how customers have used Health Catalyst products and services to improve outcomes, see our [success stories at healthcatalyst.com](https://www.healthcatalyst.com/success-stories)

## Our approach

With decades of experience pioneering the future at some of the nation's largest healthcare organizations, our consultants follow a principle-based approach to implementing improvement governance in your organization. A stepwise framework makes a complex initiative eminently manageable as our team guides your leadership through the establishment of best-practice structures and standard processes that truly drive change.

## Benefits and features

- **An actionable framework.** Emphasizing the principles of stakeholder engagement, shared understanding, alignment, and focus, our team guides your leadership through a sequence of activities that build a foundation for effective improvement governance.
- **Discipline and flexibility.** We support standardization where it matters most—in the use of data for strategic and tactical guidance, for example or the adoption of a consistent improvement method for your teams. But we're committed to designing structures and processes that work in your culture and respond to your unique needs for governance.
- **Broad perspective with deep expertise.** Steeped in the experience of healthcare systems around the country, our consultants bring lessons and best practices to support governance grounded in your organization's current realities and aligned with your overall strategy and vision.
